**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 35-46, 60-64, drawn to an apparatus.

Group II, claims 47-59, and 65-70, drawn to a process.

2. The inventions listed as Groups I, and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In the present case there is no common "special technical feature" because the general inventive concept as set forth in the claims does not define over the prior art. Applicant inventions, ie, apparatus not performing process do not fall within the permissible invention categories of PCT Rule 13.2 and 37 CFR 1.475.

3. Upon election of I, or II, the applicant is further required to elect one of the following disclosed species. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

A. Embodiment of figures 1-3.

Art Unit: 3663

B.Embodiment of figures 5, 6(a), and 6(b).

C.Embodiment of figures 8-10, and 12.

4. Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. They reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The reason are the same as those set forth in section 2 above.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
